Size	240 x 80 x 30mm	280 x 80 x 30mm	300 x 80 x 30mm
Notes	<p>We recommend loading up to 80% of capacity only and to ensure good air-flow to transformer to avoid de-rating issues that may occur from no ventilation/extended operating sessions.</p> <p>Dimming devices that have DC-DC converters in them (such as MR16 or Low Voltage lamps/floodlights) may result in unpredictable performance of both the LED product and the power supply.</p>
