24v DC RGB+CCT 9w IP65  
RF Tight Beam Spot**

**GRE Lighting**

*R & C Agency International  
Lighting Specialists for over 15 years*

Description:	24v DC Low Voltage RGB+CCT (Colour Tune) tight beam spotlight designed for a variety of applications. Suitable for up to 10m shine in favourable environments. Requires 2 core cable installation only (unlike traditional RGB/RGBW lighting) - making it an excellent choice for upgrade of existing mono-colour lighting. Integrated RGB+CCT receiver features in-built signal forwarding technology allowing UP TO 30m between fittings of the same family to be controlled with the same hand remote.
Material:	Aluminium
Input	24v DC (Requires Remote transformer, not included in box), allow up to 20w when calculating for transformers.
Output	Up to** 900 lumen (full output white mode)  Alternate operation modes (eg single colour mode will be <3w, dual colour mode will be <6w)
Operation modes	*Stand alone RGB *Stand alone Colour Tuneable (Extra Warm White -> Daylight *RGB+White Mix
IP Rating	65 only (Ensure all cable junctions are complete to IP68 standard or warranty is void)
Output	Up to 900 lumen ** - Beam Angle 15 degree
Dimmable	Via Hand Controller (LEDRGBCON8ZONE)
Warranty	2 Year Replacement Only
Size	Overall 107 (W) x 166 (H) x 32mm (D)
Additional	All distances are theoretical maximums, and assumed to be open areas with no interference sources. Over very large distances colour change modes MAY experience mis-timings with synchronisation in the event of weak signal between devices.
