

## LEDROPE24RGBW

IP20 20W per Metre 24V RGB Open Strip Light

# GRC Lighting

R & C Agency International  
Lighting Specialists for over 15 years

**Description:** 24V DC Open LED Colour Changing Strip Light. Available in 20W per metre. RGBW(6000K) strip suitable for commercial and residential installations. Variety of control methods available including, DMX512, DALI DT6 and Radio Frequency. Standard 5 wire style PCB, compatible with most other 5 wire style receivers on the market. Suggested run times of 8-10 hours per day. It is recommended that these are to stuck on metal material that can act as a heat sink. This is not recommended to be run at 24 hours per day, the maximum we recommend is 8 hours continuous use per day. If butting runs up in configurations like long straight runs, or rectangles especially, there will be slight differences in intensity due to voltage drop. To minimize this, we suggest using a thicker gauge cable, please consult with our sales team if you're not sure.

**LED per Series:** 60 per metre  
**LED Type:** SMD 5050  
**Dimmable:** Yes, via RGB controller [see LEDRGBW12/24CON or LEDRGBWCONKIT]  
**RGB Requirement:** Require RGB controller [see LEDRGBW12/24CON or LEDRGBWCONKIT]  
**Comes with Adhesive Backing:** Yes  
**Maximum Single Run:** 3m  
**Metre per Roll:** 6m
