

LEDRGBRE5IN1
5-in-1 Wifi APP controlled receiver
for 12-24v DC Strip Light

GRE Lighting

R & C Agency International
Lighting Specialists for over 15 years

Description:

Compatible with strip lights including mono, tuneable white, RGB, RGBW, RGB+CCT in either 12 or 24v dc variants (separate suitable power supply is required). Using PWM control technology ensures smooth dimming and transition, which is easily synchronized across multiple receivers. A compatible smart phone/tablet with companion app (free download) is required for APP control, alternatively this unit is compatible also with a hand held remote (available separately).

A suitable 2.4ghz wifi network is required for control. Not compatible with 5ghz networks. Networking issues are not covered under device warranty. For your peace of mind, all units supplied from us are given a final QA test prior by connecting to our in-house network prior to dispatch, then reset to factory defaults.

Limited 12 month replacement only warranty which covers replacement of item only and not any costs involved with installation/re-installation.

This device does support memory of last setting prior to power off.

Item Code	Input	Network Required	Ambient Temperature	Total Output	Size L x W x H
LEDRGBRE5IN1	12-24v DC	2.4ghz only	-10-45°C	6A/channel - Total Max 15 A	125 x 40 x 25 mm
