

ROPE24-9WCB
9W per Metre IP33 24V COB Like,
Dottless Strip Light

GRC Lighting

R & C Agency International
Lighting Specialists for over 15 years

Description: 24V DC premium strip light bringing a 'COB-Like' look to strip light. High chip configuration in special coating allows for a seamless look compared to traditional strip light formats, even if not diffused. Suggested run times of 8-10 hours per day. It is recommended that these are to be stuck on metal material that can act as a heat sink. This is not recommended to be run at 24 hours per day, the maximum we recommend is 8 hours continuous use per day. If butting runs up in configurations like long straight runs, or rectangles especially, there will be slight differences in intensity due to voltage drop. To minimise this, we suggest using a thicker gauge cable, please consult with our sales team if you're not sure.

Item Code	ROPE24-9WCB	Requires Mounting to Heat Sink	Yes
Wattage per Metre	9W per metre	Adhesive Backing	Yes
Input	24V DC	Maximum Single Run	5m
Width	10 mm	Metre per Roll	10m
Height	3 mm		
Cutable Size	50 mm		
IP Rating	IP33
