

STRIP24-CCT20W
19.2W/M 24VDC
White Tunable Strip

Commercial grade white tunable LED strip tunable between 2700K and 6000K. Integrated chip package design ensures uniform and consistent light mixing for a variety of applications. Compatible with a variety of control systems.

We recommend this be installed on a suitable heat sink and ideally be run at 10-12 hours a day. Also available in an IP65 weatherproof silicone jacket variant, with 3M sticky back mounting.
