

# SR-2300TR-RGBW DALI RGBW Touch Controller

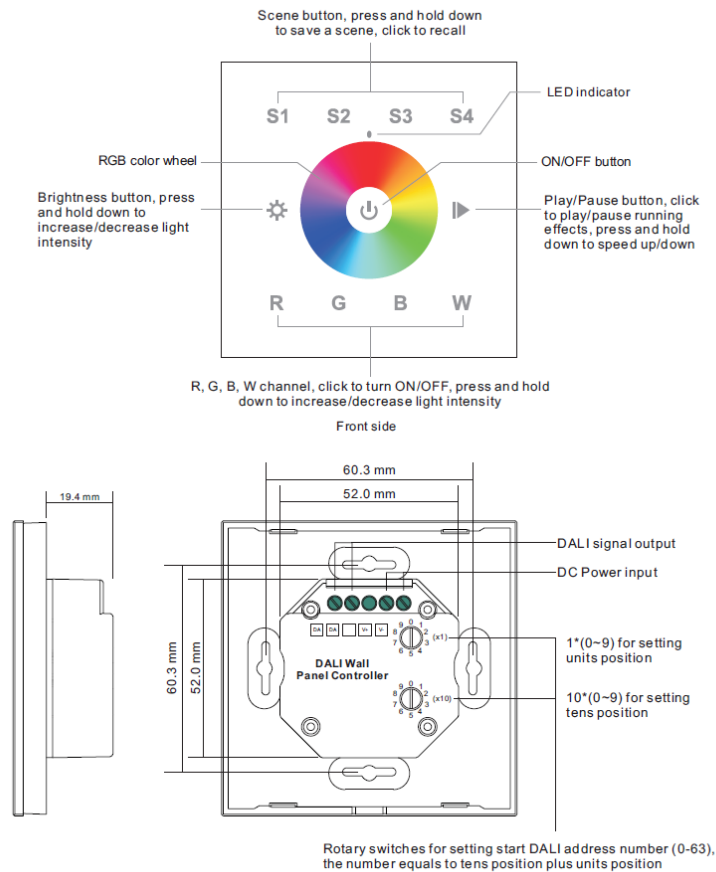

**Description:** The DALI master SR-2300TR-RGBW DALI controller which adopts high strength and ultra sensitive tempered glass panel with touch colour wheel design to offer accurate and fast colour tone and brightness adjustment functions to RGB+W LED lighting, the RGBW controller complies to IEC 62386-102, IEC 62386-207, IEC 62386-209 and can be compatible with DALI products from other international cooperation. The DALI master can control up to 1 light zone with 4 scenes. Each light zone can control 4 DALI addresses and enables to set starting DALI address. 10 built-in colour sequences are available. The RGBW DALI master controller can detect DALI bus and multiple controllers can be installed in one channel DALI bus. Compatible with most of our DALI slave controllers that are available in both constant voltage and constant current versions, the RGBW touch controller can be control different types of LED lighting. 10 built-in colour sequence are available.

This DALI controller is available with both 100-240V AC input and 12-24VDC input versions. AC input version is designed with built-in 100mA DALI power supply to power up to 50 DALI ECG and it can also be powered by DALI bus while not connected to AC mains. Max. 100 DALI ECG can be controlled by 4 AC input DALI touch panels via broadcast on a control circuit with 2 connected to AC mains and 2 powered by DALI bus.

Item Code	Power Supply	Output	Operation Current	DALI Consumption	Size L x W x H
SR-2300TR-RGBW	12-24V DC	DALI signal	<20mA	4mA	86 x 86 x 29.1 mm
