

**EX0010RGB-24VDC**  
24VDC 9W RGB+CCT Spike Light

**GRC Lighting**

*R & C Agency International*  
*Lighting Specialists for over 15 years*

**Description:** IP66 9W low voltage RGB+CCT radio frequency controlled garden spike light. A huge range of up to 16 million colour combinations can be achieved including static whites ranging from 2700-6500k. Requiring two cables only make it an excellent choice in upgrading existing mono-colour installations. Equipped with a tight beam, low glare optic means this fitting is an excellent choice for highlighting tall columns and trees of up to 10m. Advanced RF signal transmitting technology enables max range of up to 30m\* between units (each fitting still requires 24V DC feed). \*Max range between units is a theoretical absolute maximum between two fittings assuming clear line of site with no interference. As long as units are within the max distance to each other, the signal can carry to next unit for maximum flexibility and ease of installation.

**Dimmable:** Yes, via Remote Only (LEDRGBCON8ZONE)

Item Code	Wattage	Input	Lumen Output	Beam	CCT	Fitting Colour	Head Size D x L
EX0010RGB-24VDC	9W	24V DC	up to 900 Lm	15° (up to 10m reach)	RGB+CCT (2700k-6500k)	Black	133 x 50 mm
